▼ Summary

- 30 years of international experience in transport planning for road, rail, bus, air.
- Successful as consultant, project manager, team leader and coach/trainer.
- Areas of expertise: passenger demand forecasting; development of transport simulation models; long- and mid-range planning of networks and service schedules; innovation and technology transfer.

▼ Experience

02/2021 – present
Owner and Principal Consultant • **MOVENTES** • Bern, Switzerland • www.moventes.net

- Provide consulting services in the fields of traffic simulation and transportation planning, helping governments and the transport industry to apply innovative technology for future transport services.

04/2017 – 01/2022
Product Owner Agent-Based Simulation • **SBB** • Bern, Switzerland • www.sbb.ch

- As project manager, led development and calibration of SBB's agent-based travel simulation model of Switzerland (8.5 million); established know-how in multimodal planning, built a functional team.
- Led the customization of software components to SBB's requirements: 1) PTV Visum's ABM module, 2) the open-source software MATSim; both being used for the first time in real-world transport planning
- As product owner, managed development priorities and application of the model which today supports management decisions across the corporation, steered research collaboration and technology transfer.

09/2013 – 03/2017
Senior Transportation Planner • **SBB** • Bern, Switzerland • www.sbb.ch

- As an expert for ridership forecasting, contributed to rail planning projects and to the improvement of existing simulation models, with an emphasis on international demand, emerging competition, and disruptive effects in the long-term future.

08/2011 – 07/2013
Practice Leader Traffic Simulation • **citec** • Genève, Switzerland • www.citec.ch

- As practice leader of travel forecasting and traffic simulation, trained and guided junior staff, conducted business development, advanced tools and methodology, and managed consulting projects.

01/2010 – 06/2011
Senior Transportation Engineer • **DVRPC** • Philadelphia, PA, USA • www.dvrpc.org

- Developed a new regional travel forecasting model for the Philadelphia region (5.5 million) and guided its migration to the PTV Visum software; consulting in pedestrian and bus rapid transit (BRT) projects.

02/2001 – 11/2009
Principal Consultant / Vice President • **PTV America Inc.** • Wilmington, DE, USA • www.ptvgroup.com

- Started the PTV office on the East Coast; built, trained and directed a team of seven; acquired and managed numerous consulting projects in the areas of travel demand forecasting, public transport planning, and microscopic traffic simulation.
- Successfully launched the transport planning software PTV Visum on the North American market. Developed the consulting practice in travel forecasting and in public transportation planning.

05/2000 – 01/2001
Technical Officer Network Planning • **Lufthansa** • Frankfurt, Germany • www.lufthansa.com

- Planning and forecasting of national and international air passenger flows.

12/1993 – 03/2000
Senior Consultant • **PTV** • Karlsruhe, Germany • www.ptvgroup.com

- As project manager, developed turn-key macroscopic transport models; delivered travel demand forecasts; conducted mobility data analysis and choice modeling; trained software users of PTV Visum.

▼ Education

10/1987 – 09/1993
Diplom-Wirtschaftsingenieur (M.Sc. Industrial Engineering) • **KIT** • Karlsruhe, Germany

09/1976 – 05/1985
Abitur • **Albertus-Magnus-Gymnasium** • Regensburg, Germany

▼ Languages

German (native language) • **English** (fluent, C2) • **French** (fluent, C1) • **Italian** (advanced, B2)

▼ Voluntary professional contribution

- Guest lectures in academic education • ETH, Zürich • HEIG, Yverdon • University of Delaware
- Active member of AET (Association for European Transport) • currently member of the program commission (travel models) for the European Transport Conference.
- Active member of Swiss Transportation Engineers (SVI) • member of the research commission (2013-2018) • monitoring and advisory of research projects (ongoing).
- Past memberships (until 2011): ITE (Institute of Transportation Engineers, USA) • TRB (Transportation Research Board, USA).
